

BIOMIXYL Cream

Natural Treatments: BIOMIXYL treatment (product code V190, S4-190)

DESCRIPTION

Special Cream with a high concentration of vegetal nano-proteins. The application of the cream, together with BIOMIXYL SERUM, stimulates the regeneration of collagen fibers, therefore it provides skin with a silky and luminous look, and the tissue regains and maintains elasticity and a youthful texture.

Available in retail size (V190, 30 ml) and inside BIOMIXYL Kit in minitubes of 6 ml (S4-190).

MAIN ACTIVE AGENTS

Shea Butter (*Butyruspermum Parkii*) - It has skin nourishing and softening properties. Skin will feel moisturized, smoother and firmer.

Rice Bran Oil (*Oriza Sativa*)- With its natural antioxidants and phytosterols is a very potent skin protectant. Its ability to protect the skin against premature aging, dehydration and oxidation, and maintaining Ph balance is exemplary.

Pea Extract (*Pisum Sativum*) - Pea extract reinforces the skin's natural defenses. It is rich of vitamins and bioflavonoids and helps fight against free radicals generated by harmful environmental factors.

Horsetail Extract (*Equisetum Harvense*) - This natural extract is well known for its soothing, regenerating properties as well as its toning and astringent qualities.

Biomixyl vegetal nano-moleculas - Stimulate the matrix layers in the skin, for the regeneration of new collagen and fibronectin. Biomixyl nanomoleculas counteract against the aging process which leads to thinning skin and the wrinkling of inelastic skin.

USE DIRECTIONS

Apply the cream on cleansed face, neck and décolleté. Spread it and gently massage it until complete absorption.

In cabin it has to be used for finishing the intensive treatment.

SKIN CONDITION

For all skin types. Particularly suitable for mature skin, with loss of collagen.

NOTES

It is suggested a daily use in synergy with the other products of Biomixyl line. It is designed to be used also as maintenance of Biomixyl treatment.

BIOMIXYL CREAM (S4-190), 5 mini tubes of 6 ml

And a home care product:

BIOMIXYL 2000 CREAM (V190), 30 ml in vase

USE DIRECTIONS

Before starting the treatment it's suggested to carry out carefully one or more Glycol Mask treatments. According to the different necessities and the different skin types the Glycol Mask care can be carried out before each **biomixyl** treatment.

Clean and gently tonify face, neck and décolleté with HYDRA_{comfort} milk e HYDRA_{comfort} tonic.

In the eyes contour area, apply just a little quantity of **biomixyl¹⁰⁰⁰ eye cream** and cover the eyes with a cotton pad soaked in HYDRA_{comfort} eye tonic.

Apply 3 ml of **biomixyl serum**, spread it on face, neck and décolleté, tapping with fingertips, until it will be completely absorbed.

When the tissue will be completely dry, apply 4 ml of **biomixyl mask phase 1** on face, neck and décolleté. Massage until complete absorption.

Pour in a basin **biomixyl mask**, and mix with 40/45 ml of distilled water (or Hydra_{comfort} tonic), until obtaining a creamy compound.

Spread the compound on face and neck, let it laying for 20/25 minutes at least. For a better final results, we suggest to let the mask laying for a longer time.

Wash out the mask and tonify with HYDRA_{comfort} tonic.

Apply 1 ml of **biomixyl serum** on the more damaged areas, gently tapping with fingertips until complete absorption.

Complete the treatment applying **biomixyl cream** on face, neck and décolleté, massage carefully until the skin will completely absorb it.

For the homecare, during the first two weeks of treatments, after cleaning, apply regularly **biomixyl²⁰⁰⁰ cream** after **biomixyl³⁰⁰⁰ serum**. During the following weeks, the maintenance can be carried out using, the night, **biomixyl²⁰⁰⁰ cream** and in the morning **biomixyl³⁰⁰⁰ serum**. You can use this product also before the make up.
