MOONLIGHT MASK, S4-500, 4 sachets of 30 gr

And a home care product:

MOONLIGHT CREAM, V501, 1 vase Of 50 ml

Apply 5 ml MOONLIGHT gomming on the face including eyes contour-, neck and décolleté, especially on brown skin patches (melasma). Massage the product with dry hands for 5-6 minutes until the product will become a sort of rubber. Than remove the remaining products with your hands.

Cleansing and tone up with HYDRA comfort Milk and HYDRA comfort Tonic.

Take out 5 ml of MOONLIGHT Extract from the tube, apply and tip with fingers till complete absorption for 5/8 minutes. Don't massage the product. Wait for 2/3 minutes till the tissue is completely dry.

Pour in a tray 1 packet of MOONLIGHT Mask (Peel - off 30 gr.) and mix with 45-50 ml of water. You'll obtain a cream-mask. Apply on the face including eyes contour -, neck and décolleté.

Apply it homogeneously on the area to be treated and leave it to act for 20/25minutes. The mask is very important because it's the incubation time of the Whitening active agents. This active agents will penetrate and have a whitening effect on the skin.

Take off the mask with fingers starting from décolleté, neck, then the face and tone up with HYDRA comfort Tonic.

Open the phial of MOONLIGHT Powder and apply the transparent dispenser. Take-off 5 ml of the powder in small quantity. Apply the products on face, neck and keen especially on brown skin patches (melasma). The powder will become a creamy serum through your massage. Massage till complete absorption with circular movements.

At the end of the treatment Take out 5 ml of MOONLIGHT Cream from the tube, apply and massage till complete absorption
